WELCOME

Welcome to Alliance Mechanical & Fabrication Engineering Ltd, a leading force in mechanical works, mining services, civil engineering, electrical and hardware supplies, and heavy equipment solutions.

With a rich history spanning 25 years, we take pride in our Tanzanian heritage and our unwavering commitment to delivering exceptional services.

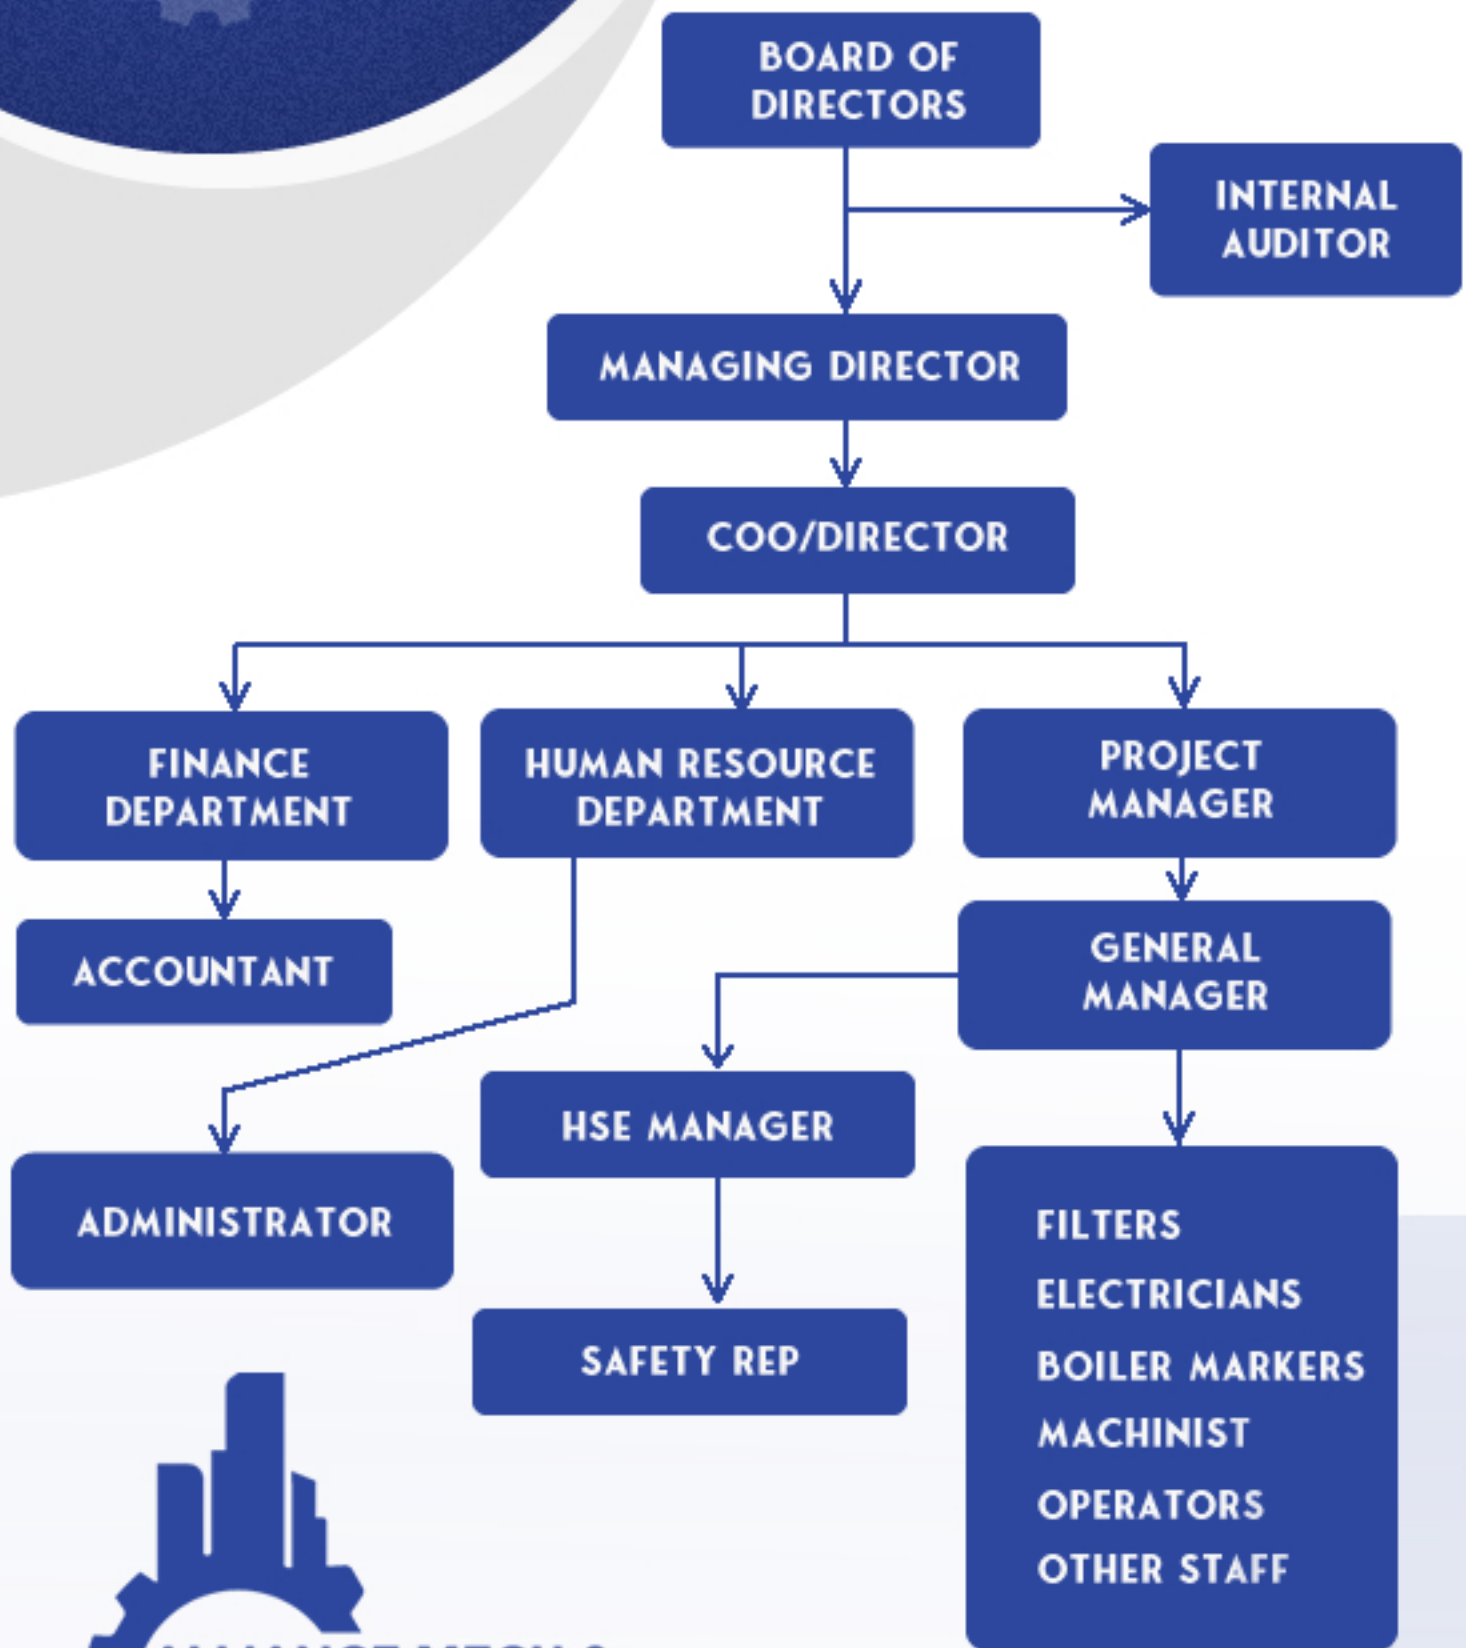

**ALLIANCE MECH &
FAB ENGINEERING LTD**

THE ORGANIZATION

- Company Name:** ALLIANCE MECHANICAL & FABRICATION ENGINEERING LIMITED
- Postal Address:** P.O. Box 2253, Mwanza - Tanzania
- Telephone:** +2557(63/84)299563, 255762979591,
+255784522733
- Contact Persons:** Solomon Mlemba - Managing Director
Shufaa Salum - Chief Operating Officer
- E-mail Address:** solomon.mlemba@amfengineering.co.tz
shufaa.salum@amfengineering.co.tz
info@amfengineering.co.tz
- Website:** <https://www.amfengineering.co.tz>
- Job Description:** Mechanical works, metal engineering, mining services, civil works, electrical and hardware supplies, heavy earth-moving equipment hiring, heavy and light vehicles hiring and transportation.

ORGANIZATION STRUCTURE

PERSONNEL

PERSONNEL

Our dedicated team, led by Managing Director Solomon Mlemba and Director Shufaa Salum, brings a wealth of experience and expertise to every project. From skilled mechanics and engineers to safety and environmental specialists, we ensure excellence in every aspect of our operations.

**ALLIANCE MECH &
FAB ENGINEERING LTD**

COMPANY RESOURCES

Alliance Mechanical & Fabrication Engineering Ltd owns a diverse range of machinery and equipment:

- | | |
|---|--|
|  Radial Drill Machine |  Genset Rebuild |
|  Universal Milling Machine |  Lathe Machine |
|  Valve Grinding Machine |  Hydraulic Power Pack |
|  Rolling Machine |  100 Tonnes Press Machine |
|  Press Machine |  Spot Welder Machine |
|  Guillotine Machine |  TIG Welder Machine |
|  Engine Boring Machine |  Pipe & Hollow Section Machine |
|  Heavy Duty Power Saw |  Hydraulic Bench Tester |
|  Hydraulic Hose-Crimping Machine | |
|  Sand Blasting Machine |  Hydraulic Cylinder Honing Mill |

EXPERIENCE

EXPERIENCE

With a remarkable 25-year journey in mechanical and metal engineering within the mining industry, we've built a legacy of reliability and excellence. Our ongoing projects with reputable companies speak volumes about our commitment to quality.

FAB ENGINEERING LTD**

OUR SERVICES

OUR SERVICES

Alliance Mechanical & Fabrication Engineering Ltd offers a comprehensive suite of services that reflects its versatility and proficiency in meeting the multifaceted needs of its esteemed clientele:

-  Mechanical Works
-  Electrical Works
-  Civil Works
-  Hardware Supplies
-  Machineries, Equipment & Vehicles Hiring

Engine Repair and Rebuilding

Alliance Mechanical & Fabrication Engineering Ltd specializes in the comprehensive repair and rebuilding of engines. This includes sourcing genuine parts and ensuring that engines are restored to optimal functionality.

Metal Fabrication

The company is equipped for intricate metal fabrication work, constructing structures and components to exacting specifications.

Rubber Lining

Alliance Mechanics & Fab Engineering provides rubber lining services for tanks and other applications, ensuring durability and corrosion resistance.

Hydraulic Services

The company excels in rebuilding hydraulic systems, cylinders, and pumps. On-site line boring services are also offered for precise repairs.

Vehicle Repair and Rebuilding

With expertise in automotive engineering, the company offers services for the repair and rebuilding of various vehicles, including heavy-duty machinery.

ELECTRICAL WORKS

HEM Equipment Repairs and Maintenance

The company specializes in the repair and maintenance of heavy earth movement equipment, ensuring operational efficiency.

Electrical Components

The company procures and installs electrical components such as electrical panels, contactors, breakers, cables, including transformers, variable speed drives, and soft starters for various applications.

Hydraulic, Pneumatic, and Electrical Services

Alliance Mechanical & Fabrication Engineering Ltd offers comprehensive services covering hydraulic, pneumatic, and electrical systems.

CIVIL WORKS

Renovation

Alliance Mechanics & Fab Engineering engages in renovation projects, bringing a blend of architectural finesse and engineering precision to enhance structures.

Equipment Hiring

The company provides equipment hiring services, offering a range of machinery for construction projects.

Carpentry

Carpentry services are offered, ensuring that woodworking aspects of projects are handled with skill and craftsmanship.

HARDWARE SUPPLIES

Protective Clothing

The company supplies protective clothing meeting industry standards to ensure the safety of workers.

Pipes and Fittings

A variety of pipes and fittings are sourced and supplied for construction and industrial purposes.

Building Materials

Alliance Mechanics & Fab Engineering is a reliable source for high-quality building materials.

**ALLIANCE MECH &
FAB ENGINEERING LTD**

Machineries, Equipment & Vehicles Hiring

Machineries, Equipment & Vehicles Hiring

The company maintains a fleet of vehicles, trucks and a diverse range of heavy earth moving equipment and machineries for hiring to clients at the most competitive rates.

**ALLIANCE MECH &
FAB ENGINEERING LTD**

QUALITY MANAGEMENT

Quality Management

At Alliance, quality is not just a standard; it's a commitment. The company's commitment to meeting and exceeding industry standards is reflected in its dedication to ongoing training, legal compliance, and the continuous refinement of its processes.

ENVIRONMENT & SAFETY

Environment & Safety

Aligning with OHSAS 18001 standards, the Occupational Health and Safety Management System is a testament to our commitment to compliance, risk management, continuous improvement and environmental responsibility. Through routine environmental clearing, cleaning programs, and strict safety measures, we prioritize the well-being of our team, clients, and the planet.

LOGISTICS

Logistics

Alliance Mechanical & Fabrication Engineering Ltd maintains a fleet of heavy earth moving equipment, light vehicles, and trucks for ensuring the seamless delivery of goods and services.
